Global Understanding Seminar

Experiences and opportunities

Paola Ninanya

WHAT IS GLOBAL UNDERSTANDING SEMINAR?

- International program that lets their participants share academic, cultural and educative experiences with other university students.
- Universidad Continental belongs to this university web and gives their students this opportunity.

HOW DID I WORK?

- We could work through technological tools.
- But also we received previous classes to handle any kind of situation.

WHAT DID I LEARN THERE?

- International experiences
- A correct way of working on groups
- Improvement of English skills
- Losing the fear of giving speeches
- Increment of the knowledge about other countries

WHO DID I WORK WITH?

I could work with two partners on the whole sessions. Scott Henion (US) and Elif Aykan (Turkey).

Elif and I are in constant communication nowadays, I could say I got a new friend. She shares with me how was her university days and about the festivities of Istanbul, etc. I share with her all my ideas too, she is amazing.

Of course I can not forget to talk about the GUS group from Universidad Continental. They are amazing guys I am glad to know them.
